MARCH 2020

TALLPINESNURSERY.SCHOOL.COM

Hello Tall Pines Families-

I am really missing all of your sweet faces and smiles. As most of you know I have been making little craft goodie bags and leaving them in front of my house. I just wanted to send a reminder that they will still be available and I'll be adding new things each week. If you need my address to my house please reach out to your class rep as they have it. I have really enjoyed being able to wave at my little friends who have come by to pick up bags even if it's at a distance. **All my love!!**

It's Nicole in the Business Office. I hope that you are all staying safe and healthy during this unique time. The bright side is that we all have the opportunity to spend valuable time with our families. As I have older children, I really appreciate the time spent with my girls at home right now, and having a break from their crazy schedules has actually been ok. However, I really miss being at school and seeing all of you and your kiddos smiling faces - they always brighten my day!

As we enter into a new month, I know a lot of you will be thinking about tuition. If the current situation causes a hardship with your family, please wait on sending in your payment and we will reassess the situation when we are back at school. As always, payments can be mailed to:

**Tall Pines Nursery School PO Box 1543
Grass Valley, CA 95945**

I am currently working from home and checking both voicemails and emails daily. Please don't hesitate to contact me with any questions!

As the current situation continues to evolve, we will also continue to reassess and keep you posted as we know more. Please stay safe and positive - we're a strong community and we will get through this together! In the meantime keep enjoying all of those craft projects, songs and stories from our amazing Teachers I'm looking forward to seeing you all soon!

Love, Nicole

How to make SLIME!

This slime recipe without borax makes perfect slime every single time!

Materials:

1/2 cup Elmer's White School Glue (4 ounces)

1/2 teaspoon baking soda

1/3 cup water

10 drops liquid food colouring (optional)

2-3 Tablespoons contact lens solution

Instructions:

1. Add the white glue to a bowl, then sprinkle the baking soda on top. Mix with a spoon to combine.
2. Add the water and food colouring (about 10 drops). Mix until it's completely combined and the colour is consistent. Make sure you scrape the edges of the bowl with the spoon as you stir to get all the glue mixed in.
3. Add 2 Tablespoons of contact lens solution to the glue mixture, and stir until you have a good slime consistency and it stops sticking to the sides of the bowl.
4. Keep adding small amounts of contact lens solution, kneading it into the slime, until you're happy with the consistency and/or it stops sticking to your hands.
5. Store in an airtight container for up to 5 days.

Notes:

Store your slime in the refrigerator to make it last longer.
